

**This task requires the use of specific manipulatives.**

**Task 00:**

<p>Present the task to the student. Point to the pictures in the diagram on the student-response page as they are referenced. Read the task exactly as it appears below.</p> <p><b>This is a diagram of our solar system. The Sun and some of the planets are labeled: Sun, Venus, Mars, Jupiter, Saturn, and Neptune. Use the diagram to help answer the questions. Place the cards that name the planets onto the chart under the diagram.</b></p> <p>Present and read each option card aloud:</p> <p><b>Venus, Mars, Jupiter, Neptune</b></p>	
<p>Prompt 1: Point to the first column of the chart and to the option cards on the student-response page as they are referenced. Read the prompt exactly as it appears below.</p> <p><b>Which of these planets has a temperature that is most similar to Saturn’s temperature?</b></p> <p><b>Venus, Mars, Jupiter, Neptune</b></p> <p>The student receives a score of 2 for a correct response. If the student does not respond, repeat the prompt <i>only once</i>, exactly as it appears above.</p> <ul style="list-style-type: none"><li>If the student responds correctly, the student receives a score of 2.</li><li>If the student responds incorrectly, the student receives a score of 1.</li><li>If the student does not respond, the student receives a score of NR.</li></ul> <p>If the student does not respond correctly, pick up and place the correct option card in the response box and say:</p> <p><b>Jupiter has a temperature that is most similar to Saturn’s temperature.</b></p> <p>Leave the option card in place on the student-response page.</p>	<p><b>2 1 NR</b></p>

Venus

Mars

Jupiter

Saturn

Neptune

Use Task Manipulatives  
Provided

Most Similar to Saturn's Temperature	Hottest Temperature	Coldest Temperature

<p>Prompt 2: Point to the middle column of the chart and to the option cards on the student-response page as they are referenced. Read the prompt exactly as it appears below.  <b>Which of these planets has the hottest temperature?</b>  <b>Venus, Mars, Neptune</b></p> <p>The student receives a score of 2 for a correct response. If the student does not respond, repeat the prompt <i>only once</i>, exactly as it appears above.</p> <p>If the student responds correctly, the student receives a score of 2.  If the student responds incorrectly, the student receives a score of 1.  If the student does not respond, the student receives a score of NR.</p> <p>If the student does not respond correctly, pick up and place the correct option card in the response box and say:  <b>Venus has the hottest temperature.</b></p> <p>Leave the option card in place on the student-response page.</p>	<b>2</b> <b>1</b> <b>NR</b>
<p>Prompt 3: Point to the last column of the chart and to the option cards on the student-response page as they are referenced. Read the prompt exactly as it appears below.  <b>Which of these planets has the coldest temperature?</b>  <b>Mars, Neptune</b></p> <p>The student receives a score of 2 for a correct response. If the student does not respond, repeat the prompt <i>only once</i>, exactly as it appears above.</p> <p>If the student responds correctly, the student receives a score of 2.  If the student responds incorrectly, the student receives a score of 1.  If the student does not respond, the student receives a score of NR.</p> <p>If the student does not respond correctly, pick up and place the correct option card in the response box and say:  <b>Neptune has the coldest temperature.</b></p>	<b>2</b> <b>1</b> <b>NR</b>

**Correct answer prompt 1:** Jupiter  
**Correct answer prompt 2:** Venus  
**Correct answer prompt 3:** Neptune

# Use Task Manipulatives Provided

**Venus**

**Mars**

**Jupiter**

**Neptune**
