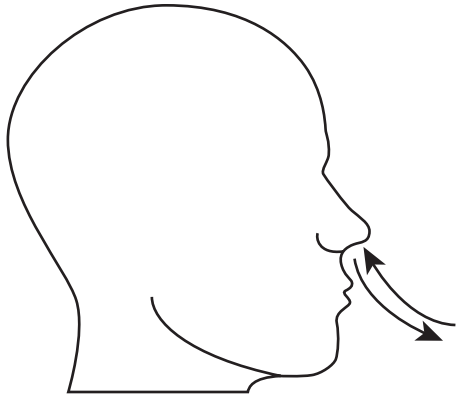
Item 00:

Present the primary prompt to the student. Point to the picture at the top of the student-facing page and read the following prompt exactly as it appears below. Primary Prompt: **A person breathes in oxygen and breathes out carbon dioxide. What is this process?** Point to and read each answer option aloud: **Digestion, Respiration, Photosynthesis** **Choose your answer.** The student receives a score of 4 for a correct response. If the student does not respond, repeat the primary prompt and answer options *only once*, exactly as they appear. If the student responds correctly after the second presentation of the primary prompt, the student receives a score of 4. If the student responds incorrectly or does not respond after repeating the primary prompt, move to Level 3.	**4**
Turn the page and present the additional prompt to the student. Present the primary prompt and answer options again, exactly as they appear above. The student receives a score of 3 for a correct response. If the student does not respond or responds incorrectly, move to Level 2.	**3**
Point to the correct answer and read aloud: **This process is respiration.** Present the primary prompt and answer options again, exactly as they appear above. The student receives a score of 2 for a correct response. If the student does not respond or responds incorrectly, move to Level 1.	**2**
If the student responds incorrectly at Level 2, the student receives a score of 1.	**1**
If the student does not respond at Level 2, the student receives a score of No Response (NR).	**NR**

Correct answer: Respiration

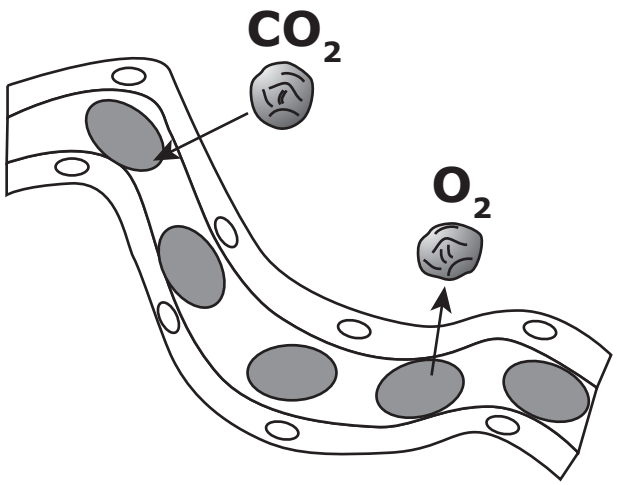


Digestion	Respiration	Photosynthesis

Present the additional prompt to the student. Point to the picture/card/map on the student-facing page as it is referenced in the prompt. Read the additional prompt exactly as it appears below.

Additional Prompt:
This is an example. Carbon dioxide and oxygen are exchanged in a blood capillary during gas exchange.

Turn back and present the primary prompt and answer options again, exactly as they appear on the previous page.



Blood capillary

Gas exchange
