On the first read through, Test Administrators are required to adhere to the scripts provided in this manual for administering the Interim Assessment. Read word-for-word the bold instructions in each SAY box to students. You may not modify or paraphrase the wording in the SAY boxes. Some of the SAY boxes are outlined with a dashed line and should ONLY be read aloud if they are applicable to your students. School Test Coordinators can monitor student testing statuses or proctor tests by selecting View under Proctor Groups on the admin card, then selecting Proctor under Actions for a particular proctor group. This will take you to the proctor dashboard for that proctor group.

During Testing – Progress

The progress column displays the students' progress as one of the following:

Not Started – The student has not signed in to test.

Needs Attention – The student has logged into TestNav and needs their test approved by the proctor.

In Progress – The student has signed in to the test. No action is needed by the proctor.

Approve Session – Proctors will need to select Approve Session for any student with a Needs Attention progress status for the student to begin their test in TestNav.

Reseat Session – Proctors can select this if a student exits TestNav before submitting their test or if something interrupts a student's session. This might include a computer issue, session timeout, or an unexpected error. Reseating allows the student to re-enter their test code and SSID to continue taking their test.

Submit Session – Test Coordinators can select this if a student finishes their test but fails to submit the test before exiting.

Unsubmit Session – Test Coordinators can select this if a student mistakenly submits their test.
