

Test Administrator Braille Scripts for Paper-Based Testing

English Language Arts/Literacy

**The Test Administrator Braille Script must be used with the
Test Administrator Manual for Paper-Based Testing.**

Tasks for Test Administrators to Complete BEFORE Braille Testing

Refer to Section 3.0 of the *Test Administrator Manual for Paper-Based Testing* for more information on tasks to complete before testing. Note:

- Directions for filling in a circle, making marks, and erasing do not apply. The student will write answers using a braille writing device (e.g., braillewriter, braille note-taker, slate and stylus) or other method identified in his or her Individualized Education Program (IEP). These will be referred to as answer sheets in the scripts. The student should number his or her responses to be sure that his or her answers can be transcribed accurately onto an answer document.
- For constructed-response items in mathematics, remind the student to label each part of his or her work if a question has multiple parts and clearly identify his or her answer for each part, as necessary.
- The words “Go On” are omitted at the bottom of the page. The word “STOP” is retained at the bottom of the page.
- Page numbers that match the print copy are in the top right corner in the braille test booklet.
- Braille test booklets may be disassembled for testing, but must be reassembled for return. To reassemble the test booklets, you may staple or binder clip all pages for return to Pearson. It is critical that schools check the number of pages in the test booklet prior to disassembling the test booklets to help ensure that all pages are returned. Failure to return all pages will be considered a breach of security.
- During the test, a student taking the test electronically may emboss a copy of his/her answers to review. A final copy of the student’s responses must then be printed for transcription purposes. Both the embossed and final copies of the student’s work must be returned to the School Test Coordinator after testing.

Before students arrive for each unit, do the following:

- Ensure that the testing room is prepared as described in Sections 2.3 and 3.5 of the *Test Administrator Manual for Paper-Based Testing*.
- Verify you have the schedule of times for the day’s test units.
- Make sure you have the correct test booklets for your group to be tested.
- Write the student’s name on the top of the test booklet.
- Verify you have the correct tactile graphics for mathematics and/or picture descriptions for English language arts/literacy.
- If applicable, make sure that recreational books and other allowable materials for after testing are out of reach of the students during testing.
- Make sure that hand-held calculators are available for students during the calculator sessions (refer to Section 4.2 of the *Test Administrator Manual for Paper-Based Testing* for guidelines on calculators).
- Make sure you have a list of the accommodations for the students testing and have received the proper training from your School Test Coordinator. Consult **Appendix A** of the *Accessibility Features and Accommodations Manual* for the list of available accessibility features and accommodations for paper-based testing.
 - If the student requires a Human Reader, follow the protocol outlined in **Appendix B** of the *Accessibility Features and Accommodations Manual*.
 - If one or more students are testing with extended time accommodations, you will need to adjust the amount of time each student will have to complete each unit. Refer to each student’s accommodations for information on extended time, and follow the guidelines outlined in **Appendix D** of the *Accessibility Features and Accommodations Manual*.
 - If one or more students in your unit needs a word-to-word dictionary as an accommodation, have these available to students or allow students to bring their own.

Reminders for Test Administrators DURING Braille Testing

Refer to Section 4.0 and 5.0 of the *Test Administrator Manual for Paper-Based Testing* for more information on tasks to complete during and after testing.

When announcing the amount of time students will have to complete each unit, be sure to adjust the amount of time available to all students who have approved extended time accommodations.

During testing, you must focus your full attention on the students at all times to confirm that they are working independently. Ensure that all student desks are free of any prohibited materials, and that all prohibited aids in the classroom have been removed or covered. Refer to Sections 2.2 and 2.3 of the *Test Administrator Manual for Paper-Based Testing* for information on prohibited activities and prohibited materials.

If a student starts a test unit and leaves school without finishing (e.g., due to illness, family emergency), he or she may be allowed to complete that test on a different day. If you have concerns about a student completing a unit, you should not allow the student to begin. If a student leaves during a unit, contact the School Test Coordinator.

If you have questions regarding policy, security breaches, or irregularities, consult your School Test Coordinator.

Read only the bold instructions in each **SAY** box to students. Text that is outside the **SAY** boxes includes directions for Test Administrators to follow and should not be read to students. Refer to Section 4.6 of the *Test Administrator Manual for Paper-Based Testing* for guidance on redirecting students and clarifying directions during an administration. Test Administrators are permitted to clarify **only** scripted administration instructions after reading the script word-for-word. No passages or test items may be clarified.

In-between test units, have students place a bookmark in their test booklet to help them identify their place in the exam when they return to the next unit.

Reminders for Test Administrators AFTER Braille Testing

- If the student recorded his or her answers electronically, Test Administrators should print out a copy of the student's answer sheet or ink print the student's answers in braille.
- If the student recorded his or her answers using a computer or braille note-taker, be sure to delete the student's answer sheet file completely from the devices after the student has printed.
- If the student used any electronic scratch paper or made any electronic notes, ensure that these files are deleted.
- Braille test booklets may be disassembled for testing, but must be reassembled for return. To reassemble the test booklets, you may staple or binder clip all pages for return to Pearson. It is critical that schools check the number of pages in the test booklet prior to disassembling the test booklets to help ensure that all pages are returned. Failure to return all pages will be considered a breach of security.
